

Tommy Trojan's Lament

My name is Tommy Trojan, I'm only doin' my job
No-one ever told me, about this stinkin' little NOD
Even Ronnie Rootkit, he never said a word
My life's flashin' by me, heuristics? How absurd!

Hey guys don't mess with ESET, listen good, or you'll regret
Killin' PC's has always been my job, but I can't get passed this evil NOD

Headline in 'Virus News', says NOD is everywhere
Before I hit that last PC, I could-a got myself prepared
So how will I survive, I'm really gettin' frantic
Guess the only thing to do, is find a PC with Sssymm.....
